

THE ULTIMATE HEALTHCARE CLEANING SYSTEM.

THE ADVANTAGE BUCKETLESS MOPPING SYSTEM DELIVERS FASTER, MORE EFFICIENT CLEANING PERFORMANCE.

The system is 66% faster than traditional mop/bucket systems, 46% faster than existing Microfiber systems.

The powerful combination of O'Dell Microfiber Pads and the direct dispensing design saves time, chemical and water use, and labor cost.

The direct application of uncontaminated cleaning solution virtually eliminates cross contamination, chemical use and wastewater.

Reducing chemicals and wastewater reduces environmental impact.

Features Sterling Inhibitor Microfiber Pads with silver, antibacterial nanotechnology for ultimate virus and bacteria elimination – 99.5% effectiveness.

Easy and inexpensive to launder—lasts up to 10 times longer than conventional mops.

THE ADVANTAGE EDGE:

- Self-Contained Cleaning System
- Increased efficiency
- Substantial Cost Savings
- Superior Cleaning
- Longer Life and Durability
- Proven Environmental Benefits

Easy access clip for janitor's cart

6. Always release the pressure from the bottle after you are finished cleaning.

ADVANTAGE OFFERS:

- Increased Efficiency
- Substantial Cost Savings
- Superior Cleaning
- Proven Environmental Benefits
- Ease of Use

ADVANTAGE TO EFFICIENCY AND COST

Studies show the average time to clean a 1,000 sf area is up to 14 minutes. The Advantage System can cut that time in half, delivering high quality cleaning more efficiently. Labor costs can be reduced substantially, compared to traditional cleaning methods.

ADVANTAGE TO CLEANING

The Advantage Bucketless Mopping System delivers excellent performance. Because Advantage uses your own new, uncontaminated cleaning solution in its reservoir, every floor receives fresh solution. Simply change the launderable Microfiber pad for every room, and you can completely control your level of clean, and prevent cross contamination.

ADVANTAGE TO THE EARTH

Advantage is designed to use less chemicals, reducing the environmental impact on the wastewater stream. Advantage uses only 10% the amount of water used by conventional mopping methods.

ADVANTAGE TO PERSONNEL

Advantage requires no bucket and wringer, eliminating heavy lifting and back strain. Floors dry quickly lessening the chance of falls.
